

# LOMAK

Property Group, Inc.

820 Bay Avenue, Suite 220

Capitola, California 95010

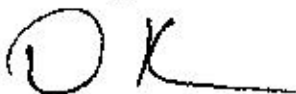

September 12, 2006

To Whom it May Concern:

Our company develops, owns and manages commercial properties in Santa Cruz and Santa Clara Counties. We have used Adam Baker / We've Got It Wired for at least a decade. We not only have used him for new installations, we have used him for our own facilities and have recommended him highly to our tenants. In fact, in some of our buildings we insist that tenants use Adam for any wiring or communications work that could impact our building's systems.

We consider Adam and his crew experts. They are extremely knowledgeable, meticulous, honest and work very well with tenants and other contractors. They have our highest recommendation. Please feel free to call me if you have any questions.

Sincerely,

Doug Kaplan
