Adam:

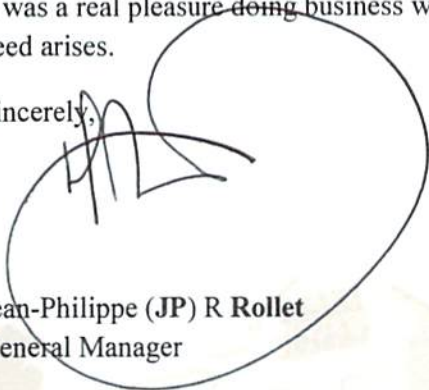

I wanted to take a moment to commend you and your colleague for the terrific job you did addressing the wiring at the hotel.

The project went seamlessly and you were on budget which is testament to the value of a thorough walkthrough. I particularly appreciate your willingness to be here on the weekend and flexibility with the timing of your presence on site. I am also thankful for the creative solution you provided with the wall rack.

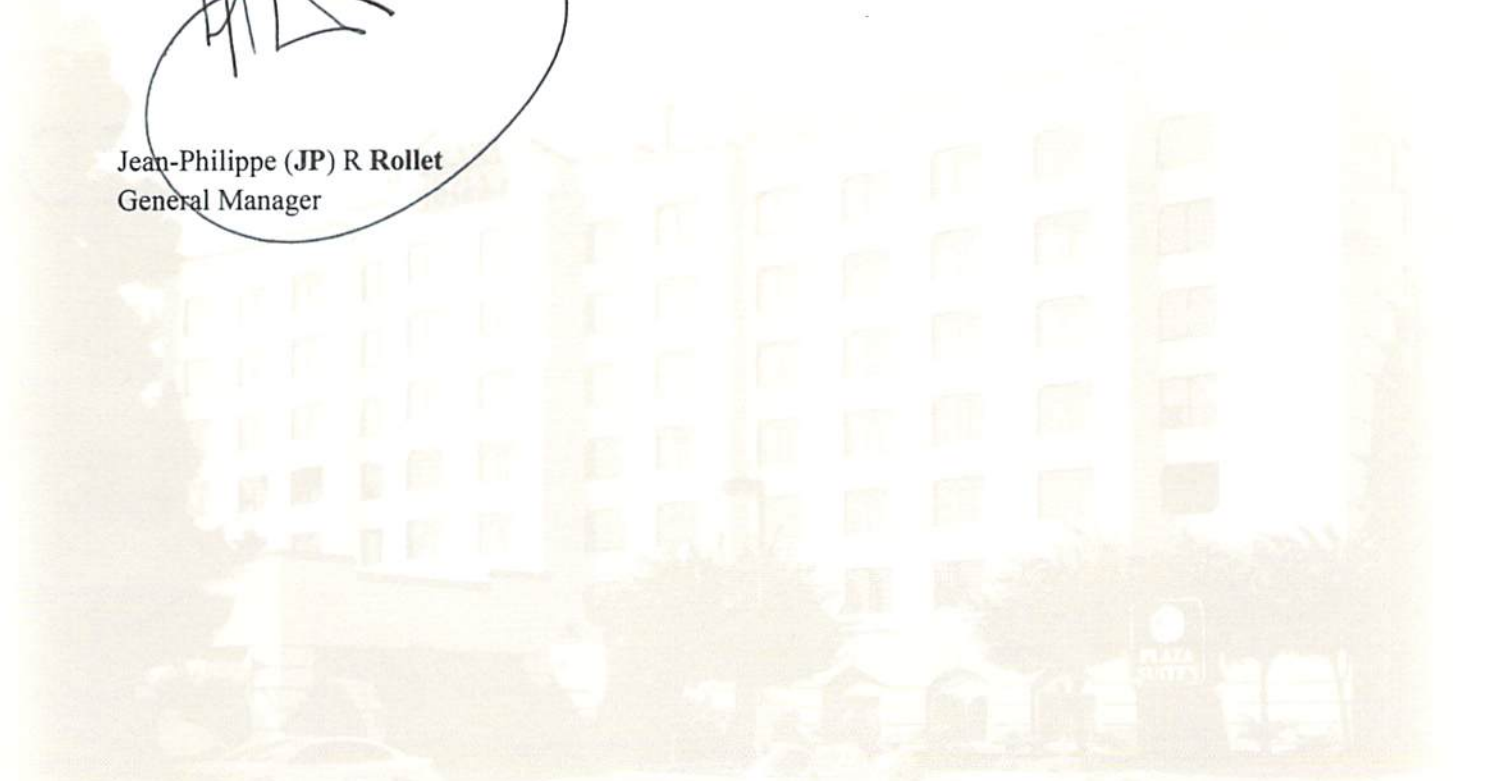

Re-wiring projects are typically the proverbial hornet's nest following the manipulation of existing wiring and I am happy to report we had no challenges following your departure, which I know was no accident.

It was a real pleasure ~~doing~~ business with you; we will be sure to use your services in the future as the need arises.

Sincerely,

Jean-Philippe (JP) R Rollet
